2. OLD BUSINESS

a. Project Update- presented by Pam Drach

Before going through the Project Update, Pam provided a summary of FY 2020 spending which ended on June 30.

The Evansville MPO, INDOT, LPA partners and consultants collaboratively delivered \$20.6 million in contract-related projects. Of that, six contracts went to letting (Covert Avenue, Bell Road, Walnut Street Phase 1, Columbia/Delaware Bridge, Vanderburgh County Sign Project, and 2nd Street/Washington Avenue Intersection Project). These totaled \$19 million in construction in FY 2020.

The EMPO typically does not get that much money to spend – the annual obligation is \$6.75 million, and this past year the Prior Year Balances (PYB) were about \$10.8 million. The PYB needed to be spent down by the end of the fiscal year. The EMPO also borrowed about \$3 million from other MPOs that weren't going to be able to spend down their annual obligation, with the agreement that we will give them that \$3 million back in

the future. Moving forward, the EMPO will not get \$20 million to spend, but will get the \$6.75 million annual obligation. The EMPO will also not be able to carry over any balances that are not spent.

The EMPO will continue to focus on construction as the first priority, and will look at other expenses if there will be money left over. In the past when PYB was available, the EMPO could put roughly 70% of money towards construction and 30% towards other expenses, but moving forward it will be closer to 90% construction and 10% other expenses. This makes it important that projects are delivered when they are programmed.
